SKILLS

- C/C++, Swift, Python, PHP, JavaScript, HTML, CSS
- SwiftUI, Next.js, React.js, React Native, Express.js, Nest.js, MySQL, Tailwind CSS
- Figma, Git, Firebase, AWS, Postman.
- Languages: **Spanish** (main), **English** (b2)

WORK EXPERIENCE

AXPTEK: Software Engineer

04/2022 to 07/2023

Point-Of-Sale for Marquesitas del Norte

- Designed and developed a web application that manages the product selling process for a fast-food franchise, impacting the order experience for **10,000+** clients.
- Implemented the backend with **PHP** and developed the frontend without any framework.
- The application is designed for a touch-screen device, to make the user experience faster and intuitive.

E-Commerce site for LMA Wines

- Developed an E-Commerce site for one of the best Mexican wine stores in California, improving the online distribution for an industry that exports **90%** of all the wine produced in Mexico.
- Designed the frontend with **React** framework optimizing the developing time for the application, and used **Tailwind CSS** for the web styling.
- All the system uses a **SQL** database to store all the user information data, and shows the product list from an **API** designed for the site.

UABC: Software Engineer Intern

09/2021 to 12/2021

Psychometric Exam App

- Developed a desktop application for a Psychometric Exam to evaluate and compare the retention capacity and response speed of **25,000+** students in Baja California.
- Made this app using **Next.js** like if it was a “Web Application” and then used **Tauri** as a bundler to build the app for **desktop**.
- The application stores all the results in a **database** and the Administrator User can export all the data as a .xls file that can be used in **Excel**.

PERSONAL PROJECTS

Software Engineer Portfolio

12/2023

- Designed and developed a site for myself to show all the skills and work experiences as a software engineer and give to collaborators a simple way to contact me.
- Full **responsive** site with clean, minimal and **modern design**.
